

WINDOW & FACADE

**VERTICAL SHADING WITH SIR SYSTEM
FOR OPTIMUM FABRIC TENSION**

VENTOSOL VS/VD5100 | VS/VD5200 | VS6100 | VS6200 | VS/VM

SIR system

VS5400 Horizontal awning

VS6100, VS6200 semicircular

- Fabric protected in the box
- Suitable for many uses with its rounded or square box
- Maximum stability of the cover guidance system thanks to the SIR system (Soft Retaining System – zip fastener technology)
- No light can creep in between the cover and guide rail (SIR system)
- Very high wind stability
- Drop profile recessed into the box (VS6100 / VS6200 / VM720/3)
- Wall mounting possible with fixing brackets or direct screw connection
- Mounting to soffit possible using direct screw connection
- Service-friendly due to 2-piece or 3-piece protective box (VS5600 / VS6100 / VS6200)
- Different fabrics enable clear view despite shading, or even complete darkening
- For indoor use thanks to the counterweight system for horizontal applications (VS5400)
- Can also be used as a screen for outside and inside (suitable cover required)
- No fluttering of the cover or excessive noise emission
- Insects are kept out
